

TO THE  
Evesham Rural District Council

REPORT OF THE MEDICAL OFFICER OF HEALTH  
FOR THE YEAR 1950.

Mr. Chairman and Gentlemen,

I beg to present the Annual Report on the health of your District:—

VITAL STATISTICS

Registrar-General's Population Estimate — 16,870.

BIRTHS	MALES	FEMALES	TOTAL						
				Legitimate	...	...	...	...	...
Legitimate	130	121	251						
Illegitimate	5	6	11						
	135	127	262						

**STILL BIRTHS**

Legitimate	...	...	...	...	...	4	4	8
Illegitimate	...	...	...	...	...	—	—	—
						4	4	8

Birth Rate (1949)  
per 1,000 of estimated resident population ... 15.5 19.8

Still Birth Rate (1949)  
per 1,000 total (live and still) births ... 29.6 15.5

<hr/>				
Totals	...	80	92	172

The number of births (262) is 56 fewer than 1949 with 7 deaths of infants under one year, an increase of two from preceding year—the infantile mortality rate increasing from 16 as last year to 27. The death rate is lower — 10.2 as opposed to 11.6 in 1949.

## GENERAL PROVISION OF HEALTH SERVICES IN THE AREA

The removal of patients from the district to the Isolation Hospitals of the Regional Hospital Board has worked satisfactorily during the year.

### SANITARY CIRCUMSTANCES OF THE DISTRICT WATER SUPPLIES

3,923 houses out of a total of 4,750 are supplied with piped water. The Coventry Corporation scheme, using the River Severn, will, it is estimated, furnish a piped supply to approximately 700 houses, the remainder to be eventually supplied by Council schemes.

The Ashton-under-Hill undertaking is now completed and the houses are in process of connection. Twenty of these are now in receipt of a piped supply.

Results of monthly samples—96 taken during the year—show that the piped supply is uniformly satisfactory.

Eighteen well water analyses vary considerably. There is no plumbo-solvency in this district.

The following tables show the supplies to local villages:—

Parish	FROM PUBLIC MAINS				FROM PRIVATE SUPPLIES	
	Direct to Houses.	By means of Standpipe.	No. of dwelling houses	Population	No. of dwelling houses	Population
Abbots Morton	—	—	—	—	47	170
Aldington	42	144	—	—	2	6

<b>Totals ...</b>	<b>3923</b>	<b>13555</b>	<b>35</b>	<b>125</b>	<b>792</b>	<b>2380</b>

## *Sewerage and Sewage Disposal*

Two new Sewage Disposal Works were constructed during the year to serve newly built Council houses in Sedgeberrow and Ashton-under-Hill parishes. One is in course of completion at Bretforton.

## HOUSING

During the post-war period up to the end of 1950, a total of 270 houses have been erected by the Council. During 1950, 80 Council houses were completed and a further 122 houses were in course of construction at the end of the year.

## INSPECTION OF MEAT AND OTHER COMESTIBLES

There is one licensed slaughter-house in the area, for pigs only. It is maintained in a satisfactory state and is regularly inspected.

The amounts of food found to be unfit for human use and condemned will be found in the attached Sanitary Report.

There are 23 premises registered for the sale of Ice Cream, all of which are maintained in a satisfactory condition. 28 visits were paid in connection with supervision of Food Storage Premises.

## INSPECTION AND SUPERVISION OF FOOD

### *Milk Supply*

No. of Registered Dairies	...	...	...	...	...	10

Totals	8	—	—	—	—	7	—	1	71	179	6	—	8	2

### DIPHTHERIA

No cases were notified during the year.

### WHOOPING COUGH AND MEASLES

Notifications increased particularly of whooping cough cases, but no deaths occurred from either disease.

### SCARLET FEVER

Eight cases were notified of a mild type. Three went to hospital, all patients recovering.

### FOOD POISONING

Two cases in a family were notified, and found to be caused by the consumption of duck eggs, infected with *Salmonella typhimurium*.

The eggs were traced to a shop selling in bulk, so it was impossible to proceed further. Both cases recovered. There were no cases in the neighbouring town or district.

### ACUTE POLIOMYELITIS

Eight cases were notified during the latter half of the year. There were no deaths.

The first two cases occurred in boys aged 4 and  $1\frac{1}{2}$  years who had been in contact as neighbours. The father of one of them had had a "feverish" attack two weeks prior to notification.

These first cases were reported on the 26th September, with a third one occurring in this month. Four cases were notified in October, one a non-paralytic type. One had contracted the disease on holiday.

The eighth and last case occurred on the 29th November after four weeks free from notifications.

No deaths occurred and two cases only show residual paralysis.

## DIPHTHERIA IMMUNIZATION

This work is now administered by the County Council. During the year a total of 138 children were immunized, 124 in the 0—4 year age group, and 14 in the 5—14 age group.

The total was much smaller than the 298 cases injected in 1949. This was due to the cessation of immunization during the epidemic of acute poliomyelitis.

From 1940 to 1950 a total of 2,256 children have been protected. Many additional cases were immunized by medical practitioners. Reinforcing doses are given at school to children already immunized at an early age.

### *School Closure*

No schools were closed during the year.

## TUBERCULOSIS

The following table gives particulars of the thirteen new cases of Tuberculosis and of all deaths in the area during 1950.

Age Periods	New Cases				Deaths			
	Pulmonary		Non-Pulmonary		Pulmonary		Non-Pulmonary	
	M.	F.	M.	F.	M.	F.	M.	F.
Under 1 year	...	...	—	—	—	—	—	—

The building of houses has proceeded as rapidly as possible and very many cases of hardship have now been accommodated.

It would appear that the standard of public health in the area is quite satisfactory.

I am indebted to the Chief Sanitary Inspector and his staff for their excellent services.

I am,

Your obedient Servant,

J. J. MURRAY,  
*Medical Officer of Health.*

15th August, 1951.

# Evesham Rural District Council

## REPORT OF SANITARY WORK UNDERTAKEN IN THE YEAR ENDED 31st DECEMBER, 1950

Housing	<b>New houses erected during year</b>						80
	By Council	...	...	...	...	...	
<b>Inspection of Dwelling Houses</b>							17
No. of houses inspected for housing defects (under Public Health and Housing Acts)							887
No. of houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation							16
No. of houses (excluding above) found not to be in all respects reasonably fit for human habitation							156
<b>Remedy of defects without service of formal notice</b>							
No. of defective houses rendered fit in consequence of informal action by local authority or their officers							2
<b>Action under statutory powers during year</b>							
(a) Proceedings under Sections 9, 10 and 16 of the Housing Act, 1936.							
(1) No. of houses in respect of which notices were served requiring repairs							—
(2) No. of houses which were rendered fit after service of formal notice :							—
(a) By owners							—
(b) By local authority in default of owners							—
(b) Proceedings under Public Health Act, 1936.							
(1) No. of houses in respect of which notices were served requiring defects to be remedied							1
(2) No. of houses in which defects were remedied after service of formal notice :							—
(a) By owners							—
(b) By local authority in default of owners							—
(c) Proceedings under Sections 11 and 13 of the Housing Act, 1936.							
(1) No. of houses in respect of which Demolition Orders were made							6
(2) No. of houses demolished in pur- suance of Demolition Orders							1

House Drainage (excluding New Houses)	<b>New drainage provided</b>		
	(a) To sewer ... ... ...	...	1
	(b) To cesspool ... ...	...	11
	No. trapped, ventilated and repaired	...	—
	No. of obstructed drains dealt with	...	23
	No. of tests applied to house drains	...	11
	No. of insanitary lavatories, sinks and urinals dealt with ... ...	...	1
